## ONE-THIRD VOTE PREDICTED TODAY

Little Interest Shown and it is Predicted No More Than 3,500 Ballots Are Cast

NORMAL VOTE ABOVE 10,000

Women Fail to go to Polls as in Former Years—Few Township Contests Bring Out Voters

An extremely light vote was being cast today in Rush county in the primary election, and at 2 o'clock this afternoon it was estimated at several of the precincts in Rushville township that the vote would not exceed one-third, due to small interest being displayed.

There were only a few townships where the democratic ticket had opposition for township offices, and it was believed that this fact, combined with the busy season at the present on the farms, that the votes in the outlying townships would be very low.

The republicans also were not showing a great deal of interest in the voting, and the women were not voting as in former elections.

There were 10,804 votes cast in the November, 1920, election in Rush county, and judging from the reports from the various precincts, it was doubtful if 3,500 votes would be cast today.

The longest ballot today was used in Ripley township by the republicans where there were four candidates for assessor and three out for trustee, together with the regular contests in the county, congressional and state, where all voters in the county participated.

The longest ballot for the democrats was in Walker township, where two candidates were out for trustee, and five out for the advisory board, of which three had to be elected.

According to the law, the names of the candidates having opposition were the only ones to appear on the ballot, and those who were entered alone in the race, will not be voted upon until the November election, when the final elimination of the candidates will be made.

Each township has special ballots, for each party, owing to the fact that each township chooses their own trustee, assessor, advisory board and other township offices while the first part of the ballots is given over to the list of candidates for the state, county and congressional offices having opposition in the party ranks.

## TREASURER'S OFFICE CLOSED

Rush Attending Close of Taxpaying Period Continues to Last Minute

The county treasurer's office was closed today on account of the death of Mrs. Charles A. Frazee, wife of the treasurer. All of the court house offices closed this afternoon for the funeral of Mrs. Frazee.

The rush attending the close of the period for paying the spring installment of taxes continued until near the time for the office to close Monday night. Deputies in the office were unable to estimate today how much was collected on the closing day because the collections were not all counted and checked up this morning.

## IS IMPROVING SLOWLY

Mrs. John R. Thompson, who recently underwent an operation at the St. Vincent's hospital in Indianapolis is reported to be improving slowly, and her condition is most encouraging. Her operation was for the removal of a growth in her nostrils, but complications arose, which for a time caused her condition to be very serious.

## PATROLMAN HAVENS HURT.

Will Havens, a night patrolman, was painfully hurt this afternoon, when his left hand was cut by a window pane at his home in West Second St. He was raising a window when the glass broke, and the ligaments controlling two fingers on his left hand were severed. He was taken to the Dr. Sexton hospital where several stitches were required to close the wound.

## SIXTY-NINE IN EXERCISES

Pupils Show Interest in Special Week Being Observed in School

Sixty-nine pupils in the Rushville schools participated in the "setting-up" exercises on the Jackson school grounds this morning, which are a part of the daily program in connection with the observance of Boys' Week and Physical Culture Week in the schools this week. The exercises will be held each morning at 6:30 o'clock.

The special week will close with an exhibition of the work being done in physical education work in the schools, at the Graham Annex gymnasium Friday evening, to which the public is invited. A parade will also be made Friday afternoon. Thursday will be Boys Day; Friday, Boys Day in Parade; Saturday, Boys Day With Dad, and Sunday, Boys Day in Church.

## CONFERENCE IS ATTENDED BY MANY

Thirty Members of St. Paul's M. E. Church Choir at Connersville For District Meeting

## LOCAL QUARTETTE PRAISED

Dr. J. M. Walker of This City Presides at Music Conference—DePauw Choir to Sing Tonight

Thirty members of the St. Paul's M. E. church choir attended the annual conference on church music held at the First M. E. church in Connersville Monday evening, and rendered two selections in the sacred concert given by six choruses of the various churches. The quartette from this city composed of the Rev. C. S. Black, Dr. Frank M. Sparks, George Hogsett and O. P. Wamsley, received much praise for their selection.

Dr. J. M. Walker, district superintendent, served as the presiding officer at the conference which opened Monday afternoon and will close tonight, with a sacred concert by the DePauw University choir under the direction of Dean Robert G. McCutchan.

A number of discussions of various phases of church music were given Monday afternoon. Dr. Walker delivered an address on the subject, "The Music Committee," stressing the duties and responsibilities of that body. A. W. Martin, director of music in Miami university, gave a talk illustrated by record selections, and Willard E. Beck of Indianapolis discussed "Building, Maintaining and Using the Church Choir." At this session the Rev. C. S. Black of this city, who is the only pastor in the district having the distinction of being a graduate of a music school sang a solo. Mrs. E. A. Randall, of this city, played the organ prelude and Miss Florence Armstrong of Brookville sang a number of songs.

A general session was held this afternoon with the closing of the program tonight by the DePauw choir. All the sessions are free and the public is invited to attend. A number of people from this city plan to attend tonight's session.

## MRS. FRANK JONES IS DEAD

Expired Late Monday North of This City. After Long Illness

Mrs. Elizabeth L. Jones, wife of Frank P. Jones, living north of Rushville, expired late Monday, about 6 o'clock, death resulting from an illness of several months. The deceased was 50 years old, and besides the husband is survived by a brother, Daniel Lawrence of Cincinnati.

The funeral services will be held Wednesday afternoon at 2 o'clock at the late residence, 3½ miles northeast of here on the Dunreith pike, and burial will be made in East Hill cemetery. The services will be in charge of the Rev. L. E. Brown of this city.

## EIGHTEEN PATIENTS ATTEND CLINIC HERE

Increased Interest is Shown in Effort to Cure People Suffering With Tuberculosis

## SIX PHYSICIANS ASSIST

Eighteen patients attended the free tuberculosis clinic held Monday at the office of Dr. J. M. Lee in the Poundstone building under the auspices of the Rush County Tuberculosis association. Dr. J. M. Stygall of the Indiana Tuberculosis association and Miss Louise Fort, city health nurse, and Miss Grace Ewing, county Red Cross nurse, were in attendance. Six physicians from Rushville and elsewhere in the county were also present and assisted Dr. Stygall.

The number of patients was larger than at any other clinic which has been held here. This is very encouraging to the agencies that are responsible for the clinic, because it shows an increasing interest and a desire on the part of persons afflicted with the disease to be cured through proper treatment.

Another clinic will be held within two or three months. The clinics give the nurses an opportunity to keep a check on the tuberculosis cases in the city and county and watch the progress which the patients make in following the treatment suggested by the physicians. The clinics are made possible through the sale of Christmas seals.

## SENATE MAJORITY AGREES ON BONUS

Republicans of Finance Committee Come to Terms Tentatively on Bill For Soldiers

## IS HOUSE BILL MODIFIED

Provides For Paying Bonus by Means of 20-Year Certificate, With Loan Value of 50 Percent

(By United Press)

Washington, May 2.—Senate finance committee republicans today tentatively agreed on a soldier bonus bill. They will submit the plan to President Harding probably late today.

As tentatively framed the plan is a modification of the bill passed by the house. It provides for paying the bonus by means of twenty-year certificates which are to have a loan value of 50 percent of their face value immediately.

In three years this value will increase to 80 percent. In six years the certificates are to increase 25 percent in value and then at that time the loan value will be 75 percent of the new face value.

At the end of the 20 years the holder of the certificate can take the money due him, either in cash or in annuities.

The bill includes the vocational training and home and farm aid section of the bonus bill. It eliminates the reclamation fund.

The committee discarded the Smoot plan providing for a straight twenty-year insurance with no borrowing value. Figures on the cost of the plan agreed on, submitted by the committee experts, show that it would cost the first year \$77,000,000; second year \$92,000,000; third year, \$73,000,000; fourth, \$376,000,000 due to the increased borrowing value.

By 1943 the total cost would be \$1,136,000,000; by 1966 it would be \$3,845,000,000. By that time, it is estimated all annuities and cash redemptions would have been paid.

Senator Watson of Indiana said the committee would do nothing further until Harding's approval has been obtained because, he said, committee members do not wish to run any danger of a veto.

Watson said the president telephoned this morning and as a result Watson was able to assure the committee that Harding would give his verdict on the plan if it was submitted to him.

## BRIDGE REPAIR CONTRACTS

Awards Made to Bishop Brothers and Charles E. Hall

The commissioners, before adjourning their monthly meeting late Monday afternoon, awarded the contracts for the repair of two bridges which were damaged in spring storms. The award for the work on the Coleman bridge a short distance northeast of Rushville went to Charles E. Hall for \$511 and the Forbes contract was given to Bishop Brothers for \$469.70. The Forbes bridge is in Ripley township. Both contracts were given to the low bidders.

Other bids made were: Forbes bridge—E. L. Kennedy and Sons, \$835; Earl Arbuckle, \$495; Franklin E. White, \$665; Coleman bridge—E. L. Kennedy and Sons, \$625; Earl T. Arbuckle, \$645; George Hatfield, \$573; Bishop Brothers, \$618.20.

## HEALTH OF CITY SETS NEW RECORD

Fourth Month of 1922 Passed With Only a Total of Six Cases of Contagion This Year

## ONE SINCE JANUARY THE 29TH

Deaths Again Exceeds Births in City—Other Statistics For Month Are Given Out

With the passing of April, the fourth month this year, the health records in Rushville have set a new mark; in that the city has been extremely free of contagious disease all during the year, and that deaths are exceeding births. Aside from this office, the remainder of the city and county offices, reveal average business, with nothing unusual.

During the month preceding, births also ran a few less than deaths, but this is not very unusual for spring months, as the records show fewer deaths and more births during the summer and early fall months. Last month Dr. R. O. Kennedy, city health officer, reports that there were nine deaths and seven births within the city.

On the other hand, his record shows an unusual thing for contagious disease, as there has been only six cases reported this year, with the months of February and March going by without any cases, and on April 20, a case of measles was reported. This case was the first to be reported since January 29, when five had been reported during that month.

Ordinarily spring time is the period of much contagion, but this year has proven to be an exception, and the city has been free so far from any epidemic.

Business was as usual in the circuit court during the month just closed, as County Clerk Loren Martin reports that there were 32 civil suits placed on file, which is an average number for a month.

The 32, new cases filed consisted of various kinds of complaints, with four actions for divorce. On the other hand, Dan Cupid held his own, with the issuing of a dozen marriage licenses during the month.

The fire department had one of the quietest months in some time, and only two calls were made, which came on the last day of April, and on the day previous. One call was false and the other was an automobile fire, in which the loss was very small. The department has made a total of 20 runs this year.

In Justice Stech's court, ten criminal cases were placed on file, four of whom paid fines, with four remaining to be tried and two cases continued indefinitely. His court record also reveals that there were 8 civil suits filed during the month.

In the mayor's court, the police arraigned seven people during the month.

## RETURNS HOME

Mrs. J. A. Jones, who has been spending the winter with her parents, Mr. and Mrs. Levi Retherford of North Main street, has returned to her home, 222 West Seventh street.

## POCAHONTAS TO HOLD A DISTRICT MEETING

Councils at Shelbyville, Rushville, Greensburg, Connersville and Other Cities to be Represented

## LURLINE COUNCIL IS HOSTESS

A district meeting of the Pocahontas lodge will be held in this city Thursday, with the session at the Red Men hall, and several councils will be represented including Shelbyville, Greensburg, Connersville, Brookville, Richmond, Cambridge City, Arlington and other places.

A business session will be called to order at two o'clock in the afternoon, and the following state officers will be here for the meeting: Great Pocahontas, Mrs. Laura McKilly, Indianapolis; Great Winona, Mrs. Irene Payne, Rensselaer; Great Keeper of Records, Anna M. Fagel, Shelbyville.

A big meeting has been arranged for the night session, which will include degree work at 7:30 by Wheat Sheaf council of Shelbyville, when several candidates will be initiated.

Lurline Council, number 296, Degree of Pocahontas of this city will act as hostess for the visitors, and they are planning for an elaborate celebration.

## FINAL SCRAMBLE FOR VOTES MADE

Main Issue Involved in Indiana Primary is Whether Harding Shall Have Vote of Confidence

## INTEREST IN SENATE BATTLE

Former Governor Samuel M. Ralston Expected to Win Democratic Nomination For Senator.

By FRED G. JOHNSTON.  
(U. P. Staff Correspondent)

Indianapolis, Ind., May 2.—A final mad scramble for votes rung down the curtain today on one of the most spectacular primary election battles in Indiana history.

The main issue involved is whether a vote of confidence shall be given the policies of President Harding. Republican regulars were busy in each of the 3,500 precincts of the state lining up ballots for Senator Harry S. New, close friend of the president. He stands for renomination on the basis of the administration's record.

Leaders in the progressive wing were active in support of Albert J. Beveridge, former senator and chairman of the Chicago convention of bull moose, who seeks New's toga. All the way down the line through the thirteen congressional district, except in the third, republican congressmen are bidding for renomination again on their record.

Interest in the democratic primary centered in the senatorial race in which five candidates were entered. Former Governor Samuel M. Ralston, backed by the state organization, was said to be leading with Dan W. Simms, Lafayette attorney, running strong. Dr. Jesse A. Sanders, a "wet" advocate, was the unknown quantity. The others are Bernard Bobbs Shively of Marion and Charles Franklin Howard of Windfall. Simms definitely injected the league of nations into the race by telling the voters if they didn't favor the league to vote for someone else.

A light vote is expected by leading politicians. The voters showed a marked apathy in the campaign. Few political meetings had a large attendance. It is thought approximately 500,000 ballots will be cast before the polls close at six o'clock tonight.

Because the vote for New is regarded as a manifestation of Indiana's attitude toward President Harding, the republican race has occupied the center of the political stage, both in the state and the nation.

The result in the New-Beveridge race is expected to be determined by Lake and Marion counties, the two heaviest voting counties in the state.

## GAVEL CHANGES HANDS IN ROTARY

Lawrence L. Allen Retired as President and Warder H. Wyatt Assumes Office

## VOTE OF THANKS TO FORMER

A. C. Cotton, Physical Director, Speaks and Junior High School Boys Give Drill

Lawrence L. Allen retired as president of the Rotary club at the noon meeting today and Warder H. Wyatt was inducted into office, and resolutions recommending Ernest B. Thomas, who will leave Thursday for San Juan, Porto Rico, as a citizen, member of the Rotary club and man who has contributed much to the welfare of Rushville, were adopted unanimously.

Albert C. Cotton, director of physical education in the Rushville schools, addressed the club briefly regarding his vocation, and eighteen boys from junior high school who are in his classes, gave a drill and an exhibition in calisthenics, showing their proficiency, which were richly applauded by the Rotarians.

Mr. Cotton said that physical culture was primarily for the adult and secondarily for the youth, and that it was worth while because of its corrective value. He stated that the real purpose of the training was to reach the parents and improve them physically so that every child would come into the world with a good physique, to which they are entitled. "It is our business to get back to the parents and correct things which bring children into the world handicapped," the instructor said.

Mr. Cotton spoke briefly of his work among boys and commented that the boys whose fathers show an interest in them, are the ones with whom they have no trouble in school. The speaker advocated giving the boy some time and keeping him busy, and he will respond readily. He pointed out that boys who have something to do will not fall into evil ways and have bad companions.

Mr. Allen, in turning the gavel over to Pres. Wyatt, said a parting word, in which he thanked the Rotarians for the support they had given him and commented on what he had set out to do as president and how it had been accomplished.

On the motion of Judge Sparks, who paid a deep compliment to the retiring president, for his devotion to the Rotary club and his effective way of leading the organization during the year, the Rotarians unanimously tendered Mr. Allen a vote of thanks for his faithful services.

Pres. Wyatt said he realized his deep sense of responsibility in assuming the office and called on the Rotarians to give him the same measure of co-operation that they had shown the immediate past president.

The resolutions adopted regarding Mr. Thomas' departure follows:

To the Rushville Rotary Club: Your committee appointed to draft resolutions concerning Ernest B. Thomas submit for your consideration the following:

Whereas our highly esteemed fellow citizen, Ernest B. Thomas has accepted his appointment as president of the Federal Land Bank of Porto Rico and will soon leave for his new home, and

Whereas his standing and services are of such inestimable value to this community, we are moved to express to him and to those with whom he may have future dealings our good will in the following resolutions:

Therefore be it Resolved, (1) That as a good American citizen, Ernest B. Thomas has shown himself worthy of the emulation of all on account of his devotion to the fundamentals of our government both in practice and by declaration from the public platform.

(2) That through his wise leadership and indefatigable labors, Ernest B. Thomas as President of the Rush County Red Cross Society, was able to place this organization at the very top for effective service during the World War.

(3) That his active and constructive

## CHOICE OF THREE BREEDS

County Agent Urges All Who Wish  
to Join to Make Application  
For Membership by May 13

The county agent's office reports that applications for membership in the county pig club are being received and prospects are good for a large enrollment, which is the first prerequisite for successful club work.

In the breeding club work this year the members will have the choice of three breeds and will not have to take only one breed as was the case last year. A boy may obtain a pig of the Poland China breed, or he may select a Duroc or a Hampshire, as his preference might be.

All pigs will be put out at a uniform price of \$15 each and the boy will have the privilege of giving his note, if he does not pay the cash. In order to insure the boys getting desirable gilts, the committee, composed of representatives of the different breeds, has agreed that if a boy thinks he is paying too much for the gilt he draws, he is to go ahead with it and finish the project and show the pig in the club show. Then the breeder who furnished the pig agrees to buy back his gilt and pay the \$15 plus the cost of the feed.

May 13 is the date for all applications to be in and the county agent urges all boys who want in to get busy and make application for membership to the club.

The date of starting the club has been so arranged by the committee that a member may enter his gilt in the state fair pig club show, if he cares to. This will not be required, however, by the committee and will be optional with the member. But it is expected and hoped that Rush county will be represented at the state show with some good club gilts this fall.

## CHANGE RESIDENCE

Mr. and Mrs. Will Fitzgerald, Jr., are moving from their home in West Third street to their new home in North Arthur street.

## Garden Insect Notes

## Potato Insects.

The potato beetle, flea beetle, and other leaf-eating insects are prevalent in the state and are readily controlled by arsenate of lead sprays, one and one-half pounds of powdered lead to 50 gallons of water. However, the most serious potato pest in some sections of the state is the small green potato leaf-hopper which causes a blighting burn. The leaf-hopper is a sucking insect and therefore cannot be killed by the arsenical sprays which control leaf-eating insects. Neither is it easy to kill them with a contact spray such as nicotine sulphate. The best control is a preventive. By spraying the vines thoroughly with Bordeaux mixture it is possible to prevent the hoppers from laying eggs. Applications must be made early and continued at regular intervals and above all the undersides of the leaves must be thoroughly sprayed to get effective control. A regular spray schedule for potatoes for the control of both the leaf-hopper and the leaf-eating insects is powdered arsenate of lead 1½ pounds added to 50 gallons of Bordeaux mixture. A circular on the method of preparing Bordeaux mixture can be obtained from the Purdue Station. The first application should be made when the plants are 6 or 8 inches above ground and the application should be repeated at intervals of two weeks. Three applications are unusually sufficient excepting in unusual seasons. As already stated it is necessary to cover the undersides of the leaves and if a row sprayer is used it should be provided with 3 nozzles to a row and the spray applied at 175 to 200 pounds pressure.

## Cutworms.

Every year cutworms do greater or less damage to various garden trucks. A poison bran bait will get them and if the field is known to contain cutworms it is desirable to apply the bait before the crop is planted. Mix ¾ pound of Paris green with 25 pounds of wheat bran. With this mix 2 quarts of cheap heavy "blackstrap" molasses which has been diluted with 3 quarts of water. If more water is needed to make a damp mash it can be added. The mash should be damp enough to mold in the hand but should not be soggy. Broadcast in the evening at rate of 10 pounds per acre. It can be thickly sprinkled along rows if desired.

## My Four H Sewing Club Work

Helen Hinchman Describes Activities of  
First Organization of Its Sort in County,  
Which Was Formed in Union Township  
Under Leadership of Mrs. Oscar Rees.

By HELEN HINCHMAN

On June fourteenth a group of girls met at the home of Maxine Vandeventer, at the suggestion of Mrs. Hinchman, leader of the Fairview township club, and organized the first Four H club in Rush county. Mrs. Reese was selected as our leader, Bertha Custer was elected chairman and Maxine Vandeventer secretary.

Wilma Hunt, Naomi Nash, Helen McClure, Marian Hinchman, Mildred Billings, Mildred McMillan, Gertrude Shields and Dorothy Maury took first year work. In the second year work we enrolled Maxine Vandeventer, Geneva McClane, Alice Peters, Helen Shields, Ruth Billings, Bertha Custer and myself. I took second year work because I had had one year of Domestic Science in high school.

We met at different homes about every two weeks during June and July. We always had part of the afternoon to sew and receive instructions from our leaders, then we spent the remainder of the time in talking and a social good time.

We held joint meetings with the Fairview club until August when they finished up and exhibited at the county fair. These joint meetings were a great aid in keeping up the interest for we were always comparing our number of hours to see who was ahead and who had made the greatest gain. I only succeeded in attending four of the meetings but I surely enjoyed them and hated to miss the others.

On July first Union, Fairview and Orange townships held a joint session at the Fairview school building where Miss Grace King of Purdue University gave a demonstration of canning by the cold pack process and baking. I missed this meeting but all the girls and women I heard discussing it thought it was very helpful and all said they had enjoyed it immensely.

On August seventeenth we held a picnic in dinner at the home of Ruth and Mildred Billings near Plum Creek. We had intended having a picnic near their home but it rained so hard we were compelled to hold it indoors. This did not dampen

our spirits and we thoroughly enjoyed ourselves until dinner time. In the afternoon we sewed and had such a good time, no one wanted to go home but all good times must end just as this did.

The Fairview club exhibited their work at the Fayette county fair the third week in August. Their chairman, Sylvia McCrory, received first prize and the secretary Mary Louise Darnell received second.

Early in September our club held a meeting at the home of Mrs. Reese and had our sewing inspected. At that time Ruth Billings read to us the story of a trip to Purdue to the annual Round-up of prize winners. This aroused a great deal of enthusiasm and all who heard this story were anxious to make the trip. Some had decided not to finish but changed their minds and began to work harder.

I think this club is a great benefit to any girl, no matter whether she lives in town or in the country. It affords a means of promoting a better community spirit and arouses a spirit of co-operation and competition among the girls. Just as important as this are the material benefits of the work. By planning, cutting and making the garments required a girl gains much valuable experience that will be of help to her in future life. She learns to be economical, accurate, independent, and original. Many girls who otherwise would know nothing of sewing become interested and are often good sewers. Girls who have had some experience learn short cuts, better and newer ways. I know I have received lots of help this year and have learned at least one thing, how to make an overhand patch, something I never heard of before.

Everyone can not win a prize and if I do not I know I have all my work and all the experience I gained this summer. Then I got a lot of enjoyment out of the meetings and afternoons spent at the homes of friends with my sewing. Besides this there is the opportunity to join and try to do better next year. I am sure all who belong this year will want to join again next year and continue their work.

## Orchard Suggestions

## Apples

The most important summer spray is the one following the drop of the petals. This spray can be put on when four-fifths of the bloom has dropped; never while the trees are in full bloom.

Codlingmoth, curculie and apple scab are the three main reasons for this spray. Don't fail to get it on even if the wind is blowing. Thirty-five feet of hose, a 6 to 10 foot spray rod with a 45 degree angle nozzle will greatly simplify the spraying operation at all times.

## Materials

Use 1½ pounds of powdered arsenate of lead and 1½ gallon of liquid lime sulphur to each 50 gallons of spray. (Or use 4 to 5 pounds of dry lime sulphur to 50 gallons of spray.)

## Apple Blotch

Where apple blotch is present it must be remembered that the first blotch spray is applied ten days after the second summer or petal spray. Bordeaux mixture plus 1 pound of powdered arsenate of lead is always used for this spray. The Bordeaux mixture is made up with 4 pounds copper sulphate (blue stone) and 6 pounds hydrated lime to 50 gallons of water. Ask your county agent for a Bordeaux card giving complete directions. A good prepared Bordeaux is now sold by spray material dealers.

A. F. B. F. APPROVES  
MERCHANT MARINEFarm Bureau Would Support Ship-  
ping Subsidies Only Until In-  
dustry is Self-Supporting

## REALIZE THE NECESSITY

Shipping Board Agrees Aid Should  
Exist Only Until Flag is  
Established on High Seas

The farmers support to a ship subsidy that will make possible a U. S. Merchant Marine was assured this week when James R. Howard pledged the aid of the American Farm Bureau Federation. In a letter addressed to President Harding, Mr. Howard said:

"While the American Farm Bureau is opposed to any subsidy on principle, we realize the necessity for developing an American merchant marine as a naval auxiliary and as an agent in development of foreign trade. We approve aid temporarily until our flag can be established on the high seas, but no longer. Subsidies like tariffs should be flexible and not continue after an industry becomes self-supporting. If a subsidy be supported on naval grounds it is essential that merchant ships be available and used for training of naval reserve."

"J. R. HOWARD, Pres.,

"American Farm Bureau Federation."

This letter was the result of a thorough investigation of the merchant marine problem made by the Transportation Department and the Research Department of the American Farm Bureau Federation. A statement of the Farm Bureau's position to be filed before the Senate Commerce Committee is being prepared.

"Nothing more important could have happened than this," said Chairman Lasker in commenting on the Howard letter. "It is encouraging to find that farmers agree with what President Harding has said, that no one has greater interest in the establishment of an American merchant marine than the American farmer."

"The administration and the Shipping Board fully agree with Mr. Howard that aid should exist only until the flag is established on the high seas."

### RECEPTION FOR L. P. NEWBY

Members of Rushville Commandery Invited to Knightstown Thursday

L. L. Allen, commander of Rushville commandery No. 49, Knights Templar, has received an invitation for the Rushville commandery to attend a reception which will be held in the asylum of Knightstown commandery No. 9 Thursday evening, in honor of Leonidas P. Newby, grand master of Knights Templar, who was recently elected at the triennial conclave at New Orleans.

Because of the close fraternal and friendly relations existing between the two commanderies, it is expected that Rushville commandery will be well represented at the reception. Knights in uniform will be appropriate, it is announced. An effort is being made to arrange for a large delegation from Rushville.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

## Insist upon Kellogg's the original Corn Flakes

—they're wonderful

"Say, Mazie, I hope we don't have any bites while we're eating Kellogg's Corn Flakes, 'cause I like Kellogg's so much that the fish will get away!"

Kellogg flavor and Kellogg crispness are so different that there can be no comparison between Kellogg's Corn Flakes and imitations.

Little folks quickly say, "Get Kellogg's, Mother—please," because Kellogg's are never tough or leathery or hard to eat! Kellogg's are always so delicious that big bowls quickly disappear and eager little mouths appeal for more! And big folks appreciate the superiority of Kellogg's because their flavor is so inviting.

Kellogg's are wonderful!

Insist upon Kellogg's—the kind in the RED and GREEN box that bears the signature of W. K. Kellogg, originator of Kellogg's Corn Flakes. NONE ARE GENUINE WITHOUT IT!

The Primary Fraud

Once again today we are having demonstrated the worthlessness of the primary system. It was regarded as doubtful whether one-third of the voters would participate, which means that the nominations will not reflect the will of the majority, but the sentiments of a small minority. The primary election system increases the cost of elections and does not better the public service; in fact, the tendency is in the opposite direction. The minority party members as well as the majority party members are taxed equally to defray the expense of such an election when the old convention system would serve the purpose better. The primary is contrary to our representative form of government and

is dangerous to the extreme because it gives the demagogue an opportunity to tear down when we should be building up. It some times results in inferior candidates being selected and causes many high grade men to remain out of public service.

The primary party unity, which is essential to the successful conduct of our form of government. The system really has nothing to recommend it and why people who have the best interests of the country at heart, continue to sponsor such a thing, is past understanding.

Look Facts in the Face

When a merchant sells an article he makes a certain profit over and above the wholesale cost of the goods, the transportation, and the cost of handling. This rule applies the world over.

Suppose the people of this community have \$500,000 to spend within a given length of time.

Is it better to keep the profits at home and in circulation among us, or is it wiser to send it all away?

For purposes of illustration, we will say the dealer's profit is 15 per cent, or \$75,000.

If the people send away for this \$500,000 worth of goods all of the money they send away will stay away. We will never see it again.

If, on the other hand, the people buy those goods from local dealers, the only money to be sent away will be the wholesale cost of the goods and the transportation charges.

The 15 per cent profit will remain at home, as well as the overhead expenses, such as clerical hire, insurance, heat, light, and various other items.

Keeping that money at home does two important things. It increases the money in circulation at home, and it gives employment to local people.

People who are in the habit of patronizing their home merchants invariably have a better and more prosperous community than those who have the catalogue habit. These are facts worth looking in the face.

Wife Doing Good Work

"I have been bad off with stomach and liver trouble and bloating for many years. No doctors or medicine helped me. On the advice of my druggist, I bought a bottle of Mayr's Wonderful Remedy and I don't want to miss a single dose. It has given me more benefit than all the medicine I have ever taken. I feel I am doing good to recommend it to others." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at Druggists everywhere.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

## The Score Board

Yesterday's hero—Alex Ferguson, Yankee castoff, let his former mates down with four hits, Red Sox winning 5 to 2, Yanks toppling into second place.

Johnny Rawlings got four singles in five times up and let the Giant attack which beat the Braves three in a row by a score of 10 to 0. Ten singles, two doubles and a homer gave the Browns a 13 to 2 victory over the Indians and put them in first place.

Home runs by Walker and Dykes helped Bryan Harris pitch the Athletics to an 8 to 5 victory over the Senators.

Unlawful to Catch Bass or Bluegills  
Until June 15

Sunday, was the last day for legally fishing for bass and bluegills in the public waters of Indiana. The closed season on these species continues until June 15. In other words it is unlawful to fish for bass and bluegills after Sunday and before June 16, according to George N. Mannfeld, chief of the fish and game division of the state conservation department. Wardens are instructed to see this law is strictly observed, he says.

However, officials do not anticipate a great deal of trouble over the closed season. Most people recognize its value and that the period prohibiting fishing is for the reason bass and bluegills are spawning at this time. Unmolested they reproduce their kinds by millions. If they are taken off the nest it means a lack of fine piscatorial sport in Hoosier waters.

ters of procedure he will be greatly missed.

(5) That we assure any church, society, or Rotary Club to whom these greetings may come, that they are warranted in extending to Ernest B. Thomas a most cordial welcome. Respectfully submitted,

## CAUGHT BY HIS WIFE.

Paris, May 2.—The real cause of the suicide of William Errazuriz, young Chilean diplomat, whose name was connected with that of Peggy Hopkins Joyce, was discovered by police today after a searching investigation. Errazuriz shot himself while in a room next to Peggy's suite at the Hotel Claridge, the police believe, because he had been discovered by his wife while dancing with Peggy at the Maurice Club in the Rue Caumartin.

## TO HAVE CONCERT PART

Robert Gantner who is studying cornet in the Metropolitan School of Music in Indianapolis under Leslie E. Peck head of that department of the school, will appear in a recital to be given there next Saturday afternoon. This is one of a series of special spring concerts given at the Metropolitan School of Music. The entire program will be given by Mr. Peck's students.

## IN A CRITICAL CONDITION

Mrs. Claude Riggs of Connersville, formerly Miss Olive Buell of this city, was operated on late Saturday evening by Dr. Ruddle, a specialist of Indianapolis, at the Fayette Memorial hospital in Conners-

ville for a poisonous infection on the face, and today her condition was regarded as very critical. She is under the care of a special nurse.

## TO MEET AT FALMOUTH

There will be a group meeting of Methodist ministers at the Falmouth M. E. church Wednesday evening at 7:30 o'clock. The following ministers will be present: the Rev. Mr. Jean of Laurel, Ind., the Rev. Mr. McWilliams of Metamora and the Rev. J. L. Brown of Clarksburg, who will deliver the sermon for the evening. The public is invited to attend this meeting.

## PICTURES MINE BATTLE.

Charleston, W. Va. May 2.—A verbal picture of the battle of Blair Mountains, between coal miners and deputies in the march on Logan county last summer, was pictured today by L. B. Lepage, mine superintendent, testifying for the state in the treason trial here.

## SET FOR TRIAL FRIDAY.

The Excelsior Hog Powder company has filed suit in the court of J. P. Stech, justice of the peace, against Will C. Gilson on a note, demanding \$40. The case was set for trial Friday morning at ten o'clock.

The regular meeting of the Pythian Sisters will be held at the K. of P. hall Wednesday evening.

Mrs. Chester Cross will entertain the members of the Tarry-A-While club Friday afternoon at her home north of the city.

The regular meeting of the Rebekah Crochet club which was to have

been held Wednesday afternoon at the home of Mrs. Lee Wicker, has been postponed until next month.

Mrs. John Keating entertained a number of ladies Monday afternoon at her home in this city, with a card party. Euchre was enjoyed during the afternoon. Dainty refreshments were served at the close of the games.

The Woman's Missionary Society of the Little Flatrock Christian church will hold their regular monthly meeting Thursday afternoon May 4, at 2:30 o'clock. Mrs. Nelle Logan will be the leader of the program and a full attendance of the members is desired.

Mrs. L. L. Allen was hostess to the members of the Monday Circle Monday afternoon at her home in West First street. "He wanted life to be like a marble terrace with palaces on one hand and fair gardens on the other," was the theme of the discussion during the afternoon. Mrs. Ernest Thomas discussed Henry James and his work, "The Cosmopolitan," and Mrs. Jesse Pugh gave an interesting review of "Daisy Miller."

The regular monthly meeting of the Woman's Council was held Monday evening in the Callaghan store in East Second street. At this time the city nurse, Miss Louise Fort, made a report of her work during the month. The report showed 227 calls and 69 school children examined during the month of April. The following officers were elected: Mrs. T. M. Green, president; Mrs. Ruby Petry, vice-president; Miss Belle

Gregg, secretary; and Miss Anna Bohannon, treasurer.

The monthly meeting of Mrs. Compton's Sunday school class of St. Paul's M. E. church which was to have been held Wednesday evening at the home of Mrs. Virgil Maffett, has been postponed until a later date.

A pitch-in dinner party was given Sunday evening at the home of Mr. and Mrs. Joseph Doll by the seventh and eighth grade girls of St. Mary's school, honoring the boys of the same grades and Joseph Doll's fourteenth birthday. The evening was enjoyed with games and music. The guests were John Mullins, Bernard Joyce, Harry Jones, Francis Madden, Frank Comella, James Keating, William Newbold, William Tyner, Robert Keating, Oscar and Alfred Doll, Elizabeth Tyner, Marie McCoy, Dortha Rogers, Louise Doll, Marie McCrory, Catherine Cauley, Mary Comella and Elizabeth Trader.

## AMUSEMENTS

### "Love Never Dies"—Princess.

Smashing a train of eight standard steel cars over a trestle into oblivion gives the answer to the critics who assert that the movies are only child's play. In comparison with the financial expense involved, a heavy item in itself, the concern over the actors and extras whose lives were jeopardized in the scene was enough to give one gray hairs, according to King Vidor, director-producer who filmed the incident in "Love Never Dies," his latest production to be distributed through Associated First National Pictures, Inc. The picture will be seen again today at the Princess.

"The picture itself abounds in heart interest, but equally tense was the story that cannot be told upon the screen," he declared afterwards. "It centers around the moments of suspense in which we watched the cars go sliding over the edge of the broken bridge into the river fifty feet below.

"The question of production was secondary. We had a dozen cameras trained on the spot, because the scene had to go the first time it was put on. There couldn't be any rehearsals or retakes.

"It was only after the last foot of film had been taken that we were able to have a roll call and make certain that all of our people had come out unscathed. And when the last person answered 'here,' I can

In order to take the scenes Mr. Vidor had to buy a set of railroad equipment and obtain permission to destroy a trestle which was afterwards rebuilt under his direction.

### Pauline Frederick at Mystic.

"Two Kinds of Women," an R-C picture, in which Pauline Frederick is appearing in the stellar role at the Mystic again today, bears out a fact that the public is being forced to realize—that in their steadily broadening sphere of activity women can do the work of men and do it well, often better than men themselves. They can overcome the handicap of sex which tradition has given them and still not sacrifice any of the exalted traits of womanhood.

But this latest of Frederick pictures is far from being an argument for the emancipation of women. The women, God bless 'em, are already emancipated. "Two Kinds of Women" is a swiftly moving drama that makes one want to seek surcease from the noise and bustle of the city in the beauty and grandeur of the California Sierras, where much of the picture was filmed.

The majesty of the mountains and sheltered valleys, the wholesomeness of this outdoor story, is like a breath of fresh air in a stifling room. To the average city-dweller the picture will open up a vista of the idyllic land in which he hopes to spend his declining days. There is not a dull moment in the entire production. Nowhere does the action drag. The photography has as a background

some of California's most artistic scenic masterpieces. But analysis of the picture's appeal is hardly necessary.

Lebanon, Indiana. "I was completely run down from women's troubles and stomach trouble and for a long time was hardly able to do my work. I had some friends who had taken Lydia E. Pinkham's Vegetable Compound, and they told me about it. I know what it has done for me and I recommend it to others, as I am sure it will be a great help to all sick women. It is a wonderful medicine, and I give you permission to use my testimonial and my photograph."—Mrs. EMMA BAKER, 310 S. East St., Lebanon, Indiana.  
These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject. Mrs. Baker calls it "a wonderful medicine." If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Baker and many, many other women.

## ONE-THIRD VOTE PREDICTED TODAY

Little Interest Shown and it is Predicted No More Than 3,500 Ballots Are Cast

NORMAL VOTE ABOVE 10,000

Women Fail to go to Polls as in Former Years—Few Township Contests Bring Out Voters

An extremely light vote was being cast today in Rush county in the primary election, and at 2 o'clock this afternoon it was estimated at several of the precincts in Rushville township that the vote would not exceed one-third, due to small interest being displayed.

There were only a few townships where the democratic ticket had opposition for township offices, and it was believed that this fact, combined with the busy season at the present on the farms, that the votes in the outlying townships would be very low.

The republicans also were not showing a great deal of interest in the voting, and the women were not voting as in former elections.

There were 10,804 votes cast in the November, 1920, election in Rush county, and judging from the reports from the various precincts, it was doubtful if 3,500 votes would be cast today.

The longest ballot today was used in Ripley township by the republicans where there were four candidates for assessor and three out for trustee, together with the regular contests in the county, congressional and state, where all voters in the county participated.

The longest ballot for the democrats was in Walker township, where two candidates were out for trustee, and five out for the advisory board, of which three had to be elected.

According to the law, the names of the candidates having opposition were the only ones to appear on the ballot, and those who were entered alone in the race, will not be voted upon until the November election, when the final elimination of the candidates will be made.

Each township has special ballots, for each party, owing to the fact that each township chooses their own trustee, assessor, advisory board and other township offices while the first part of the ballots is given over to the list of candidates for the state, county and congressional offices having opposition in the party ranks.

## TREASURER'S OFFICE CLOSED

Rush Attending Close of Taxpaying Period Continues to Last Minute

The county treasurer's office was closed today on account of the death of Mrs. Charles A. Frazee, wife of the treasurer. All of the court house offices closed this afternoon for the funeral of Mrs. Frazee.

The rush attending the close of the period for paying the spring installment of taxes continued until near the time for the office to close Monday night. Deputies in the office were unable to estimate today how much was collected on the closing day because the collections were not all counted and checked up this morning.

## IS IMPROVING SLOWLY

Mrs. John R. Thompson, who recently underwent an operation at the St. Vincent's hospital in Indianapolis is reported to be improving slowly, and her condition is most encouraging. Her operation was for the removal of a growth in her nostrils, but complications arose, which for a time caused her condition to be very serious.

Pupils Show Interest in Special Week Being Observed in School

Sixty-nine pupils in the Rushville schools participated in the "setting-up" exercises on the Jackson school grounds this morning, which are a part of the daily program in connection with the observance of Boys' Week and Physical Culture Week in the schools this week. The exercises will be held each morning at 6:30 o'clock.

The special week will close with a exhibition of the work being done in physical education work in the schools, at the Graham Annex gymnasium Friday evening, to which the public is invited. A parade will also be made Friday afternoon. Thursday will be Boys Day; Friday, Boys Day in Parade; Saturday, Boys Day With Dad, and Sunday, Boys Day in Church.

## CONFERENCE IS ATTENDED BY MANY

Thirty Members of St. Paul's M. E. Church Choir at Connersville For District Meeting

LOCAL QUARTETTE PRAISED

Dr. J. M. Walker of This City Presides at Music Conference—DePauw Choir to Sing Tonight

Thirty members of the St. Paul's M. E. church choir attended the annual conference on church music held at the First M. E. church in Connersville Monday evening, and rendered two selections in the sacred concert given by six choruses of the various churches. The quartette from this city composed of the Rev. C. S. Black, Dr. Frank M. Sparks, George Hogsett and O. P. Wamsley, received much praise for their selection.

Dr. J. M. Walker, district superintendent, served as the presiding officer at the conference which opened Monday afternoon and will close tonight, with a sacred concert by the DePauw University choir under the direction of Dean Robert G. McCutchan.

A number of discussions of various phases of church music were given Monday afternoon. Dr. Walker delivered an address on the subject, "The Music Committee," stressing the duties and responsibilities of that body. A. W. Martin, director of music in Miami university, gave a talk illustrated by record selections, and Willard E. Beck of Indianapolis discussed "Building, Maintaining and Using the Church Choir." At this session the Rev. C. S. Black of this city, who is the only pastor in the district having the distinction of being a graduate of a music school sang a solo. Mrs. E. A. Ransdall, of this city, played the organ prelude and Miss Florence Armstrong of Brookville sang a number of songs.

A general session was held this afternoon with the closing of the program tonight by the DePauw choir. All the sessions are free and the public is invited to attend. A number of people from this city plan to attend tonight's session.

## MRS. FRANK JONES IS DEAD

Expired Late Monday North of This City, After Long Illness

Mrs. Elizabeth L. Jones, wife of Frank P. Jones, living north of Rushville, expired late Monday, about 6 o'clock, death resulting from an illness of several months. The deceased was 50 years old, and besides the husband is survived by a brother, Daniel Lawrence of Cincinnati.

The funeral services will be held Wednesday afternoon at 2 o'clock at the late residence, 3 1/2 miles north-east of here on the Dunreith pike, and burial will be made in East Hill cemetery. The services will be in charge of the Rev. L. E. Brown of this city.

## EIGHTEEN PATIENTS ATTEND CLINIC HERE

Increased Interest is Shown in Effort to Cure People Suffering With Tuberculosis

SIX PHYSICIANS ASSIST

Eighteen patients attended the free tuberculosis clinic held Monday at the office of Dr. J. M. Lee in the Poundstone building under the auspices of the Rush County Tuberculosis association. Dr. J. M. Stygall of the Indiana Tuberculosis association and Miss Louise Fort, city health nurse, and Miss Grace Ewing, county Red Cross nurse, were in attendance. Six physicians from Rushville and elsewhere in the county were also present and assisted Dr. Stygall.

The number of patients was larger than at any other clinic which has been held here. This is very encouraging to the agencies that are responsible for the clinic, because it shows an increasing interest and a desire on the part of persons afflicted with the disease to be cured through proper treatment.

Another clinic will be held within two or three months. The clinics give the nurses an opportunity to keep a check on the tuberculosis cases in the city and county and watch the progress which the patients make in following the treatment suggested by the physicians. The clinics are made possible through the sale of Christmas seals.

## SENATE MAJORITY AGREES ON BONUS

Republicans of Finance Committee Come to Terms Tentatively on Bill For Soldiers

IS HOUSE BILL MODIFIED

Provides For Paying Bonus by Means of 20-Year Certificate, With Loan Value of 50 Percent

(By United Press)

Washington, May 2.—Senate finance committee republicans today tentatively agreed on a soldier bonus bill. They will submit the plan to President Harding probably late today.

As tentatively framed the plan is a modification of the bill passed by the house. It provides for paying the bonus by means of twenty-year certificates which are to have a loan value of 50 percent of their face value immediately.

In three years this value will increase to 80 percent. In six years the certificates are to increase 25 percent in value and then at that time the loan value will be 75 percent of the new face value.

At the end of the 20 years the holder of the certificate can take the money due him, either in cash or in annuities.

The bill includes the vocational training and home and farm aid section of the bonus bill. It eliminates the reclamation fund.

The committee discarded the Smoot plan providing for a straight twenty-year insurance with no borrowing value. Figures on the cost of the plan agreed on, submitted by the committee experts, show that it would cost the first year \$77,000,000; second year \$92,000,000; third year, \$73,000,000; fourth, \$376,000,000 due to the increased borrowing value.

By 1943 the total cost would be \$1,136,000,000; by 1966 it would be \$3,845,000,000. By that time, it is estimated all annuities and cash redemptions would have been paid.

Senator Watson of Indiana said the committee would do nothing further until Harding's approval has been obtained because, he said, committee members do not wish to run any danger of a veto.

## BRIDGE REPAIR CONTRACTS

Awards Made to Bishop Brothers and Charles E. Hall

The commissioners, before adjourning their monthly meeting late Monday afternoon, awarded the contracts for the repair of two bridges which were damaged in spring storms. The award for the work on the Coleman bridge a short distance northeast of Rushville went to Charles E. Hall for \$511 and the Forbes contract was given to Bishop Brothers for \$469.70. The Forbes bridge is in Ripley township. Both contracts were given to the low bidders.

Other bids made were: Forbes bridge—E. L. Kennedy and Sons, \$835; Earl Arbuckle, \$495; Franklin E. White, \$665; Coleman bridge—E. L. Kennedy and Sons, \$625; Earl T. Arbuckle, \$645; George Hatfield, \$573; Bishop Brothers, \$618.20.

## HEALTH OF CITY SETS NEW RECORD

Fourth Month of 1922 Passed With Only a Total of Six Cases of Contagion This Year

ONE SINCE JANUARY THE 29TH

Deaths Again Exceeds Births in City—Other Statistics For Month Are Given Out

With the passing of April, the fourth month this year, the health records in Rushville have set a new mark; in that the city has been extremely free of contagious disease all during the year, and that deaths are exceeding births. Aside from this office, the remainder of the city and county offices, reveal average business, with nothing unusual.

During the month preceding, births also ran a few less than deaths, but this is not very unusual for spring months, as the records show fewer deaths and more births during the summer and early fall months. Last month Dr. R. O. Kennedy, city health officer, reports that there were nine deaths and seven births within the city.

On the other hand, his record shows an unusual thing for contagious disease, as there has been only six cases reported this year, with the months of February and March going by without any cases, and on April 20, a case of measles was reported. This case was the first to be reported since January 29, when five had been reported during that month.

Ordinarily spring time is the period of much contagion, but this year has proven to be an exception, and the city has been free so far from any epidemic.

Business was as usual in the circuit court during the month just closed, as County Clerk Loren Martin reports that there were 32 civil suits placed on file, which is an average number for a month.

The 32 new cases filed consisted of various kinds of complaints, with four actions for divorce. On the other hand, Dan Cupid held his own, with the issuing of a dozen marriage licenses during the month.

The fire department had one of the quietest months in some time, and only two calls were made, which came on the last day of April, and on the day previous. One call was false and the other was an automobile fire, in which the loss was very small. The department has made a total of 20 runs this year.

In Justice Stech's court, ten criminal cases were placed on file, four of whom paid fines, with four remaining to be tried and two cases continued indefinitely. His court record also reveals that there were 8 civil suits filed during the month.

In the mayor's court, the police arraigned seven people during the month.

## POCAHONTAS TO HOLD A DISTRICT MEETING

Councils at Shelbyville, Rushville, Greensburg, Connersville and Other Cities to be Represented

LURLINE COUNCIL IS HOSTESS

A district meeting of the Pocahontas lodge will be held in this city Thursday, with the session at the Red Men hall, and several councils will be represented including Shelbyville, Greensburg, Connersville, Brookville, Richmond, Cambridge City, Arlington and other places.

A business session will be called to order at two o'clock in the afternoon, and the following state officers will be here for the meeting: Great Pocahontas, Mrs. Laura McKivvy, Indianapolis; Great Winona, Mrs. Irene Payne, Rensselaer; Great Keeper of Records, Anna M. Fagel, Shelbyville.

A big meeting has been arranged for the night session, which will include degree work at 7:30 by Wheat Sheaf council of Shelbyville, when several candidates will be initiated.

Lurline Council, number 296, Degree of Pocahontas of this city will act as hostess for the visitors, and they are planning for an elaborate celebration.

## FINAL SCRAMBLE FOR VOTES MADE

Main Issue Involved in Indiana Primary is Whether Harding Shall Have Vote of Confidence

INTEREST IN SENATE BATTLE

Former Governor Samuel M. Ralston Expected to Win Democratic Nomination For Senator.

By FRED G. JOHNSTON.  
(U. P. Staff Correspondent)

Indianapolis, Ind., May 2.—A final mad scramble for votes rung down the curtain today on one of the most spectacular primary election battles in Indiana history.

The main issue involved is whether a vote of confidence shall be given the policies of President Harding.

Republican regulars were busy in each of the 3,500 precincts of the state lining up ballots for Senator Harry S. New, close friend of the president. He stands for renomination on the basis of the administration's record.

Leaders in the progressive wing were active in support of Albert J. Beveridge, former senator and chairman of the Chicago convention of bull moose, who seeks New's toga.

All the way down the line through the thirteen congressional district, except in the third, republican congressmen are bidding for renomination again on their record.

Interest in the democratic primary centered in the senatorial race in which five candidates were entered.

Former Governor Samuel M. Ralston, backed by the state organization, was said to be leading with Dan W. Simms, Lafayette attorney, running strong. Dr. Jesse A. Sanders, a "wet" advocate, was the unknown quantity. The others are Bernard Bobbs Shively of Marion and Charles Franklin Howard of Windfall. Simms definitely injected the league of nations into the race by telling the voters if they didn't favor the league to vote for someone else.

A light vote is expected by leading politicians. The voters showed a marked apathy in the campaign. Few political meetings had a large attendance. It is thought approximately 500,000 ballots will be cast before the polls close at six o'clock tonight.

Because the vote for New is regarded as a manifestation of Indiana's attitude toward President Harding, the republican race has occupied the center of the political stage, both in the state and the nation.

The result in the New-Beveridge race is expected to be determined by Lake and Marion counties, the two heaviest voting counties in the state.

## GAVEL CHANGES HANDS IN ROTARY

Lawrence L. Allen Retired as President and Warder H. Wyatt Assumes Office

VOTE OF THANKS TO FORMER

A. C. Cotton, Physical Director, Speaks and Junior High School Boys Give Drill

Lawrence L. Allen retired as president of the Rotary club at the noon meeting today and Warder H. Wyatt was inducted into office, and resolutions recommending Ernest B. Thomas, who will leave Thursday for San Juan, Porto Rico, as a citizen, member of the Rotary club and man who has contributed much to the welfare of Rushville, were adopted unanimously.

Albert C. Cotton, director of physical education in the Rushville schools, addressed the club briefly regarding his vocation, and eighteen boys from junior high school who are in his classes, gave a drill and an exhibition in calisthenics, showing their proficiency, which were richly applauded by the Rotarians.

Mr. Cotton said that physical culture was primarily for the adult and secondarily for the youth, and that it was worth while because of its corrective value. He stated that the real purpose of the training was to reach the parents and improve them physically so that every child would come into the world with a good physique, to which they are entitled.

"It is our business to get back to the parents and correct things which bring children into the world handicapped," the instructor said.

Mr. Cotton spoke briefly of his work among boys and commented that the boys whose fathers show an interest in them, are the ones with whom they have no trouble in school. The speaker advocated giving the boy some time and keeping him busy, and he will respond readily. He pointed out that boys who have something to do will not fall into evil ways and have bad companions.

Mr. Allen, in turning the gavel over to Pres. Wyatt, said a parting word, in which he thanked the Rotarians for the support they had given him and commented on what he had set out to do as president and how it had been accomplished.

On the motion of Judge Sparks, who paid a deep compliment to the retiring president, for his devotion to the Rotary club and his effective way of leading the organization during the year, the Rotarians unanimously tendered Mr. Allen a vote of thanks for his faithful services.

Pres. Wyatt said he realized his deep sense of responsibility in assuming the office and called on the Rotarians to give him the same measure of co-operation that they had shown the immediate past president.

The resolutions adopted regarding Mr. Thomas' departure follows:

To the Rushville Rotary Club: Your committee appointed to draft resolutions concerning Ernest B. Thomas submit for your consideration the following:

Whereas our highly esteemed fellow citizen, Ernest B. Thomas has accepted his appointment as president of the Federal Land Bank of Porto Rico and will soon leave for his new home, and

Whereas his standing and services are of such inestimable value to this community, we are moved to express to him and to those with whom he may have future dealings our good will in the following resolutions:

Therefore be it Resolved, (1) That as a good American citizen, Ernest B. Thomas has shown himself worthy of the emulation of all on account of his devotion to the fundamentals of our government both in practice and by declaration from the public platform.

(2) That through his wise leadership and indefatigable labors, Ernest B. Thomas as President of the Rush County Red Cross Society, was able to place this organization at the very top for effective service during the World War.

(3) That his active and constructive

## CHOICE OF THREE BREEDS

County Agent Urges All Who Wish  
to Join to Make Application  
For Membership by May 13

The county agent's office reports that applications for membership in the county pig club are being received and prospects are good for a large enrollment, which is the first prerequisite for successful club work.

In the breeding club work this year the members will have the choice of three breeds and will not have to take only one breed as was the case last year. A boy may obtain a pig of the Poland China breed, or he may select a Duroc or a Hampshire, as his preference might be.

All pigs will be put out at a uniform price of \$15 each and the boy will have the privilege of giving his note, if he does not pay the cash. In order to insure the boys getting desirable gilts, the committee, composed of representatives of the different breeds, has agreed that if a boy thinks he is paying too much for the gilt he draws, he is to go ahead with it and finish the project and show the pig in the club show. Then the breeder who furnished the pig agrees to buy back his gilt and pay the \$15 plus the cost of the feed.

May 13 is the date for all applications to be in and the county agent urges all boys who want in to get busy and make application for membership to the club.

The date of starting the club has been so arranged by the committee that a member may enter his gilt in the state fair pig club show, if he cares to. This will not be required, however, by the committee and will be optional with the member. But it is expected and hoped that Rush county will be represented at the state show with some good club gilts this fall.

## Garden Insect Notes

## Potato Insects.

The potato beetle, flea beetle, and other leaf-eating insects are prevalent in the state and are readily controlled by arsenate of lead sprays, one and one-half pounds of powdered lead to 50 gallons of water. However, the most serious potato pest in some sections of the state is the small green potato leaf-hopper which causes a blighting burn. The leaf-hopper is a sucking insect and therefore cannot be killed by the arsenical sprays which control leaf-eating insects. Neither is it easy to kill them with a contact spray such as nicotine sulphate. The best control is a preventive. By spraying the vines thoroughly with Bordeaux mixture it is possible to prevent the hoppers from laying eggs. Applications must be made early and continued at regular intervals, and above all the undersides of the leaves must be thoroughly sprayed to get effective control. A regular spray schedule for potatoes for the control of both the leaf-hopper and the leaf-eating insects is powdered arsenate of lead 1½ pounds added to 50 gallons of Bordeaux mixture. A circular on the method of preparing Bordeaux mixture can be obtained from the Purdue Station. The first application should be made when the plants are 6 or 8 inches above ground and the application should be repeated at intervals of two weeks. Three applications are unusually sufficient excepting in unusual seasons. As already stated it is necessary to cover the undersides of the leaves and if a row sprayer is used it should be provided with 3 nozzles to a row and the spray applied at 175 to 200 pounds pressure.

## Cutworms.

Every year cutworms do greater or less damage to various garden trucks. A poison bait will get them and if the field is known to contain cutworms it is desirable to apply the bait before the crop is planted. Mix ¾ pound of Paris green with 25 pounds of wheat bran. With this mix 2 quarts of cheap heavy "blackstrap" molasses which has been diluted with 3 quarts of water. If more water is needed to make a damp mash it can be added. The mash should be damp enough to mold in the hand but should not be soppy. Broadcast in the evening at rate of 10 pounds per acre. It can be thickly sprinkled along rows if desired.

## My Four H Sewing Club Work

Helen Hinchman Describes Activities of  
First Organization of Its Sort in County,  
Which Was Formed in Union Township  
Under Leadership of Mrs. Oscar Rees.

By HELEN HINCHMAN

On June fourteenth a group of girls met at the home of Maxine Vandeventer, at the suggestion of Mrs. Hinchman, leader of the Fairview township club, and organized the first Four H club in Rush county. Mrs. Reese was selected as our leader, Bertha Custer was elected chairman and Maxine Vandeventer secretary.

Wilma Hunt, Naomi Nash, Helen McClure, Marian Hinchman, Mildred Billings, Mildred McMillan, Gertrude Shields and Dorothea Manzy took first year work. In the second year work we enrolled Maxine Vandeventer, Geneva McClane, Alice Peters, Helen Shields, Ruth Billings, Bertha Custer and myself. I took second year work because I had had one year of Domestic Science in high school.

We met at different homes about every two weeks during June and July. We always had part of the afternoon to sew and receive instructions from our leaders, then we spent the remainder of the time in talking and a social good time.

We held joint meetings with the Fairview club until August when they finished up and exhibited at the county fair. These joint meetings were a great aid in keeping up the interest for we were always comparing our number of hours to see who was ahead and who had made the greatest gain. I only succeeded in attending four of the meetings but I surely enjoyed them and hated to miss the others.

On July first Union, Fairview and Orange townships held a joint session at the Fairview school building where Miss Grace King of Purdue University gave a demonstration of canning by the cold pack process and baking. I missed this meeting but all the girls and women I heard discussing it thought it was very helpful and all said they had enjoyed it immensely.

On August seventeenth we held a picnic in dinner at the home of Ruth and Mildred Billings near Plum Creek. We had intended having a picnic near their home but it rained so hard we were compelled to hold it indoors. This did not dampen

our spirits and we thoroughly enjoyed ourselves until dinner time. In the afternoon we sewed and had such a good time, no one wanted to go home but all good times must end just as this did.

The Fairview club exhibited their work at the Fayette county fair the third week in August. Their chairman, Sylvia McCrory, received first prize and the secretary Mary Louise Darnell received second.

Early in September our club held a meeting at the home of Mrs. Reese and had our sewing inspected. At that time Ruth Billings read to us the story of a trip to Purdue to the annual Round-up of prize winners. This aroused a great deal of enthusiasm and all who heard this story were anxious to make the trip. Some had decided not to finish but changed their minds and began to work harder.

I think this club is a great benefit to any girl, no matter whether she lives in town or in the country. It affords a means of promoting a better community spirit and arouses a spirit of co-operation and competition among the girls. Just as important as this are the material benefits of the work. By planning, cutting and making the garments required a girl gains much valuable experience that will be of help to her in future life. She learns to be economical, accurate, independent, and original. Many girls who otherwise would know nothing of sewing become interested and are often good sewers. Girls who have had some experience learn short cuts, better and newer ways. I know I have received lots of help this year and have learned at least one thing, how to make an overhead patch, something I never heard of before.

Everyone can not win a prize and if I do not I know I have all my work and all the experience I gained this summer. Then I got a lot of enjoyment out of the meetings and afternoons spent at the homes of friends with my sewing. Besides this there is the opportunity to join and try to do better next year. I am sure all who belong this year will want to join again next year and continue their work.

## Orchard Suggestions

## Apples

The most important summer spray is the one following the drop of the petals. This spray can be put on when four-fifths of the bloom has dropped; never while the trees are in full bloom.

Codlingmoth, curculio and apple scab are the three main reasons for this spray. Don't fail to get it on even if the wind is blowing. Thirty-five feet of hose, a 6 to 10 foot spray rod with a 45 degree angle nozzle will greatly simplify the spraying operation at all times.

## Materials

Use 1½ pounds of powdered arsenate of lead and 1½ gallon of liquid lime sulphur to each 50 gallons of spray. (Or use 4 to 5 pounds of dry lime sulphur to 50 gallons of spray.)

## Apple Blotch

Where apple blotch is present it must be remembered that the first blotch spray is applied ten days after the second summer or petal spray. Bordeaux mixture plus 1 pound of powdered arsenate of lead is always used for this spray. The Bordeaux mixture is made up with 4 pounds copper sulphate (blue stone) and 6 pounds hydrated lime to 50 gallons of water. Ask your county agent for a Bordeaux card giving complete directions. A good prepared Bordeaux is now sold by spray material dealers.

A. F. B. F. APPROVES  
MERCHANT MARINEFarm Bureau Would Support Ship-  
ping Subsidies Only Until In-  
dustry is Self-Supporting

## REALIZE THE NECESSITY

Shipping Board Agrees Aid Should  
Exist Only Until Flag is  
Established on High Seas

The farmers support to a ship subsidy that will make possible a U. S. Merchant Marine was assured this week when James R. Howard pledged the aid of the American Farm Bureau Federation. In a letter addressed to President Harding, Mr. Howard said:

"While the American Farm Bureau is opposed to any subsidy on principle, we realize the necessity for developing an American merchant marine as a naval auxiliary and as an agent in development of foreign trade. We approve aid temporarily until our flag can be established on the high seas, but no longer. Subsidies like tariffs should be flexible and not continue after an industry becomes self-supporting. If a subsidy be supported on naval grounds it is essential that merchant ships be available and used for training of naval reserve."

"J. R. HOWARD, Pres.,

"American Farm Bureau Federation."

This letter was the result of a thorough investigation of the merchant marine problem made by the Transportation Department and the Research Department of the American Farm Bureau Federation. A statement of the Farm Bureau's position to be filed before the Senate Commerce Committee is being prepared.

"Nothing more important could have happened than this," said Chairman Lasker in commenting on the Howard letter. "It is encouraging to find that farmers agree with what President Harding has said, that no one has greater interest in the establishment of an American merchant marine than the American farmer."

"The administration and the Shipping Board fully agree with Mr. Howard that aid should exist only until the flag is established on the high seas."

**The Primary Fraud**

Once again today we are having demonstrated the worthlessness of the primary system. It was regarded as doubtful whether one-third of the voters would participate, which means that the nominations will not reflect the will of the majority, but the sentiments of a small minority.

The primary election system increases the cost of elections and does not better the public service; in fact, the tendency is in the opposite direction. The minority party members as well as the majority party members are taxed equally to defray the expense of such an election when the old convention system would serve the purpose better.

The primary is contrary to our representative form of government and

is dangerous to the extreme because it gives the demagogue an opportunity to tear down when we should be building up. It some times results in inferior candidates being selected and causes many high grade men to remain out of public service.

The primary party unity, which is essential to the successful conduct of our form of government. The system really has nothing to recommend it and why people who have the best interests of the country at heart, continue to sponsor such a thing, is past understanding.

**Look Facts in the Face**

When a merchant sells an article he makes a certain profit over and above the wholesale cost of the goods, the transportation, and the cost of handling. This rule applies the world over.

Suppose the people of this community have \$500,000 to spend within a given length of time.

Is it better to keep the profits at home and in circulation among us, or is it wiser to send it all away?

For purposes of illustration, we will say the dealer's profit is 15 per cent, or \$75,000.

If the people send away for this \$500,000 worth of goods all of the money they send away will stay away. We will never see it again.

If, on the other hand, the people buy those goods from local dealers, the only money to be sent away will be the wholesale cost of the goods and the transportation charges.

The 15 per cent profit will remain at home, as well as the overhead expenses, such as clerical hire, insurance, heat, light, and various other items.

Keeping that money at home does two important things. It increases the money in circulation at home, and it gives employment to local people.

People who are in the habit of patronizing their home merchants invariably have a better and more prosperous community than those who have the catalogue habit.

These are facts worth looking in the face.

**BETTER THAN CALOMEL**  
Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

## The Score Board

Yesterday's hero—Alex Ferguson, Yankee castoff, let his former mates down with four hits, Red Sox winning 5 to 2, Yanks' toppling into second place.

Johnny Rawlings got four singles in five times up and let the Giant attack which beat the Braves three in a row by a score of 10 to 0.

Ten singles, two doubles and a homer gave the Browns a 13 to 2 victory over the Indians and put them in first place.

Home runs by Walker and Dykes helped Bryan Harris pitch the Athletics to an 8 to 5 victory over the Senators.

## CLOSED SEASON IN EFFECT

Unlawful to Catch Bass or Bluegills  
Until June 15

Sunday, was the last day for legally fishing for bass and bluegills in the public waters of Indiana. The closed season on these species continues until June 15. In other words it is unlawful to fish for bass and bluegills after Sunday and before June 16, according to George N. Mannfeld, chief of the fish and game division of the state conservation department. Wardens are instructed to see this law is strictly observed, he says.

However, officials do not anticipate a great deal of trouble over the closed season. Most people recognize its value and that the period prohibiting fishing is for the reason bass and bluegills are spawning at this time. Unmolested they reproduce their kinds by millions. If they are taken off the nest it means a lack of fine piscatorial sport in Hoosier waters.

ters of procedure he will be greatly missed.

The regular meeting of the Pythian Sisters will be held at the K. of P. hall Wednesday evening.

Mrs. Chester Cross will entertain the members of the Tarry-A-While club Friday afternoon at her home north of the city.

The regular meeting of the Rebekah Crochet club which was to have

been held Wednesday afternoon at the home of Mrs. Lee Wicker, has been postponed until next month.

Mrs. John Keating entertained a number of ladies Monday afternoon at her home in this city, with a card party. Euchre was enjoyed during the afternoon. Dainty refreshments were served at the close of the games.

The Woman's Missionary Society of the Little Flatrock Christian church will hold their regular monthly meeting Thursday afternoon May 4, at 2:30 o'clock. Mrs. Nelle Logan will be the leader of the program and a full attendance of the members is desired.

Mrs. L. L. Allen was hostess to the members of the Monday Circle Monday afternoon at her home in West First street. "He wanted life to be like a marble terrace with palaces on one hand and fair gardens on the other," was the theme of the discussion during the afternoon. Mrs. Ernest Thomas discussed Henry James and his work, "The Cosmopolitan," and Mrs. Jesse Pugh gave an interesting review of "Daisy Miller."

The regular monthly meeting of the Woman's Council was held Monday evening in the Callaghan store in East Second street. At this time the city nurse, Miss Louise Fort, made a report of her work during the month. The report showed 227 calls and 69 school children examined during the month of April. The following officers were elected: Mrs. T. M. Green, president; Mrs. Ruby Petry, vice-president; Miss Belle

Gregg, secretary; and Miss Anna Bohannon, treasurer.

The monthly meeting of Mrs. Compton's Sunday school class of St. Paul's M. E. church which was to have been held Wednesday evening at the home of Mrs. Virgil Maffett, has been postponed until a later date.

A pitch-in dinner party was given Sunday evening at the home of Mr. and Mrs. Joseph Doll by the seventh and eighth grade girls of St. Mary's school, honoring the boys of the same grades and Joseph Doll's fourteenth birthday. The evening was enjoyed with games and music. The guests were John Mullins, Bernard Joyce, Harry Jones, Francis Madden, Frank Comella, James Keating, William Newbold, William Tyner, Robert Keating, Oscar and Alfred Doll, Elizabeth Tyner, Marie McCoy, Dortha Rogers, Louise Doll, Marie McCrory, Catherine Cauley, Mary Comella and Elizabeth Trader.

## AMUSEMENTS

### "Love Never Dies"—Princess.

Smashing a train of eight standard steel cars over a trestle into oblivion gives the answer to the critics who assert that the movies are only child's play. In comparison with the financial expense involved, a heavy item in itself, the concern over the actors and extras whose lives were jeopardized in the scene was enough to give one gray hairs, according to King Vidor, director-producer who filmed the incident in "Love Never Dies," his latest production to be distributed through Associated First National Pictures, Inc. The picture will be seen again today at the Princess.

"The picture itself abounds in heart interest, but equally tense was the story that cannot be told upon the screen," he declared afterwards. "It centers around the moments of suspense in which we watched the cars go sliding over the edge of the broken bridge into the river fifty feet below."

"The question of production was secondary. We had a dozen cameras trained on the spot, because the scene had to go the first time it was put on. There couldn't be any rehearsals or retakes."

"It was only after the last foot of film had been taken that we were able to have a roll call and make certain that all of our people had come out unscathed. And when the last person answered 'here,' I can

assure you, a general sigh of relief went up."

In order to take the scenes Mr. Vidor had to buy a set of railroad equipment and obtain permission to destroy a trestle which was afterwards rebuilt under his direction.

### Pauline Frederick at Mystic.

"Two Kinds of Women," an R-C picture, in which Pauline Frederick is appearing in the stellar role at the Mystic again today, bears out a fact that the public is being forced to realize—that in their steadily broadening sphere of activity women can do the work of men and do it well, often better than men themselves. They can overcome the handicap of sex which tradition has given them and still not sacrifice any of the exalted traits of womanhood.

But this latest of Frederick pictures is far from being an argument for the emancipation of women. The women, God bless 'em, are already emancipated. "Two Kinds of Women" is a swiftly moving drama that makes one want to seek surcease from the noise and bustle of the city in the beauty and grandeur of the California Sierras, where much of the picture was filmed.

The majesty of the mountains and sheltered valleys, the wholesomeness of this outdoor story, is like a breath of fresh air in a stifling room. To the average city-dweller the picture will open up a vista of the idyllic land in which he hopes to spend his declining days. There is not a dull moment in the entire production. Nowhere does the action drag. The photography has as a background

some of California's most artistic scenic masterpieces.

But analysis of the picture's appeal is hardly necessary.

**SURE TO HELP SICK WOMEN**

**Mrs. Baker, So Much Benefited by Lydia E. Pinkham's Vegetable Compound, Anxious to Help Others**

Lebanon, Indiana.—"I was completely run down from women's troubles and stomach trouble and for a long time was hardly able to do my work. I had some friends who had taken Lydia E. Pinkham's Vegetable Compound, and they told me about it. I know what it has done for me and I recommend it to all sick women. It is a wonderful medicine, and I give you permission to use my testimonial and my photograph."—Mrs. EMMA BAKER, 310 S. East St., Lebanon, Indiana.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject.

Mrs. Baker calls it "a wonderful medicine. If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Baker and many, many other women."

**NOTICE OF SALE OF COLLATERAL**

Whereas, on the 23rd day of January, 1914, Russell L. Bebout pledged to Harter B. Bebout, which was afterwards assigned by said Harter B. Bebout to Silverton Bebout by contract of pledge bearing date of said day, two (2) shares of the capital stock of The Peoples Natural Gas Company in Rushville, Indiana, as collateral security for a note bearing date of said day, signed by Russell L. Bebout, payable one year after date to the order of said Harter B. Bebout for Two Hundred and Fifty Dollars (\$250.00), with interest at eight (8) per cent per annum from date with power to sell the same at public or private sale. And Whereas, on the sixth day of April, 1922, the Rush Circuit Court rendered judgment against said Russell L. Bebout and in favor of said Silverton Bebout on said note in the sum of Four Hundred Thirty-eight and 45/100 Dollars (\$438.45).

Now, therefore, pursuant to the authority given by said collateral pledge, the undersigned will, on the sixth day of May, 1922, at 2 o'clock p. m., at the law office of Donald L. Smith, in the city of Rushville, County of Rush and State of Indiana, offer said stock at public sale to the highest bidder.

Dated this 29th day of April, 1922.

**SILVERTON BEBOUT.**  
May 2-11

**SHERIFF'S SALE**

By virtue of a certified copy of a decree to me directed from the Clerk of the circuit court of Rush county, State of Indiana in the cause wherein the Capital Building Company is plaintiff and Cyrus Hilligoss and Lillian E. Hilligoss are defendants, requiring me to make the sum of Six Thousand Seven Dollars and Forty Cents (\$6007.40) with interest and costs on said decree. I will expose at Public Sale to the highest bidder on Wednesday, the 31st day of May, 1922, between the hours of 10 o'clock a. m. and 4 o'clock p. m. at the north door of the Court House of Rush County, State of Indiana, the rents and profits for a term not exceeding seven years of the following real estate in Rush County, State of Indiana:

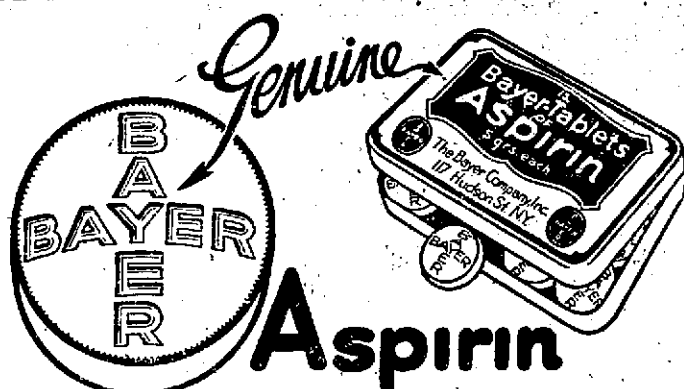

The northwest quarter of the northwest quarter of Section 33, Township 13 Range 9 east and the northeast quarter of Section 33, Township 13, Range 9 east, containing in both tracts 200 acres more or less.

If such rents and profits will not sell for a sufficient sum to satisfy said decree, with interest and costs I will at the same time and place expose to Public Sale the fee simple of said real estate or so much thereof as may be sufficient to discharge said decree. Said sale will be made without relief from Valuation or Appraisal Laws.
